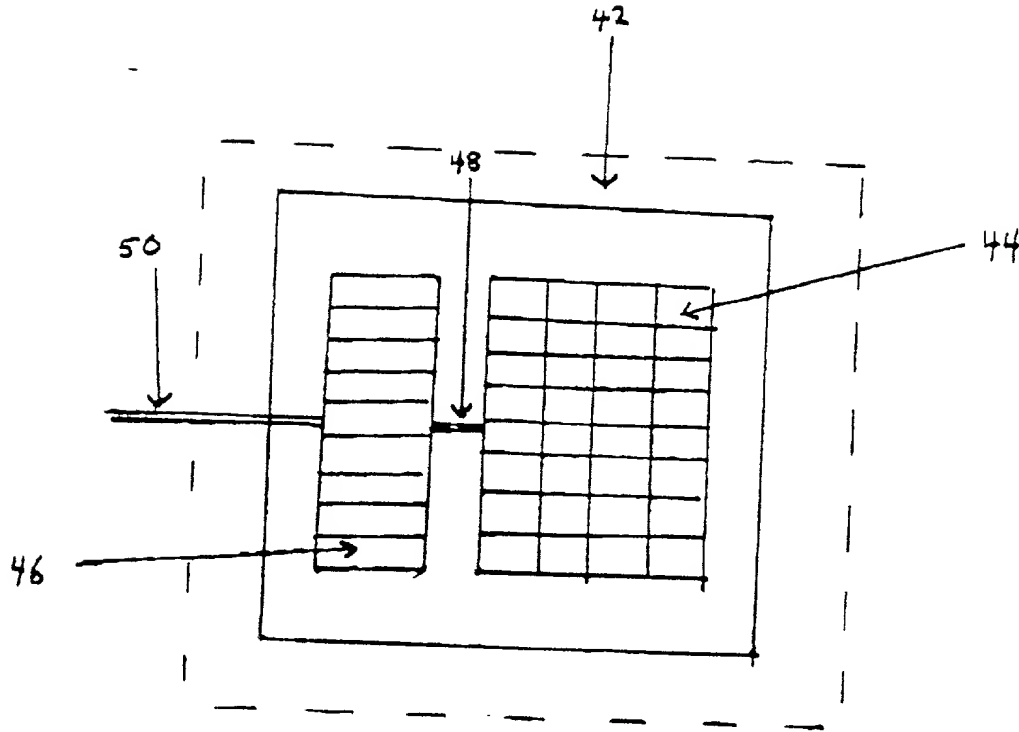

FIGURE 6

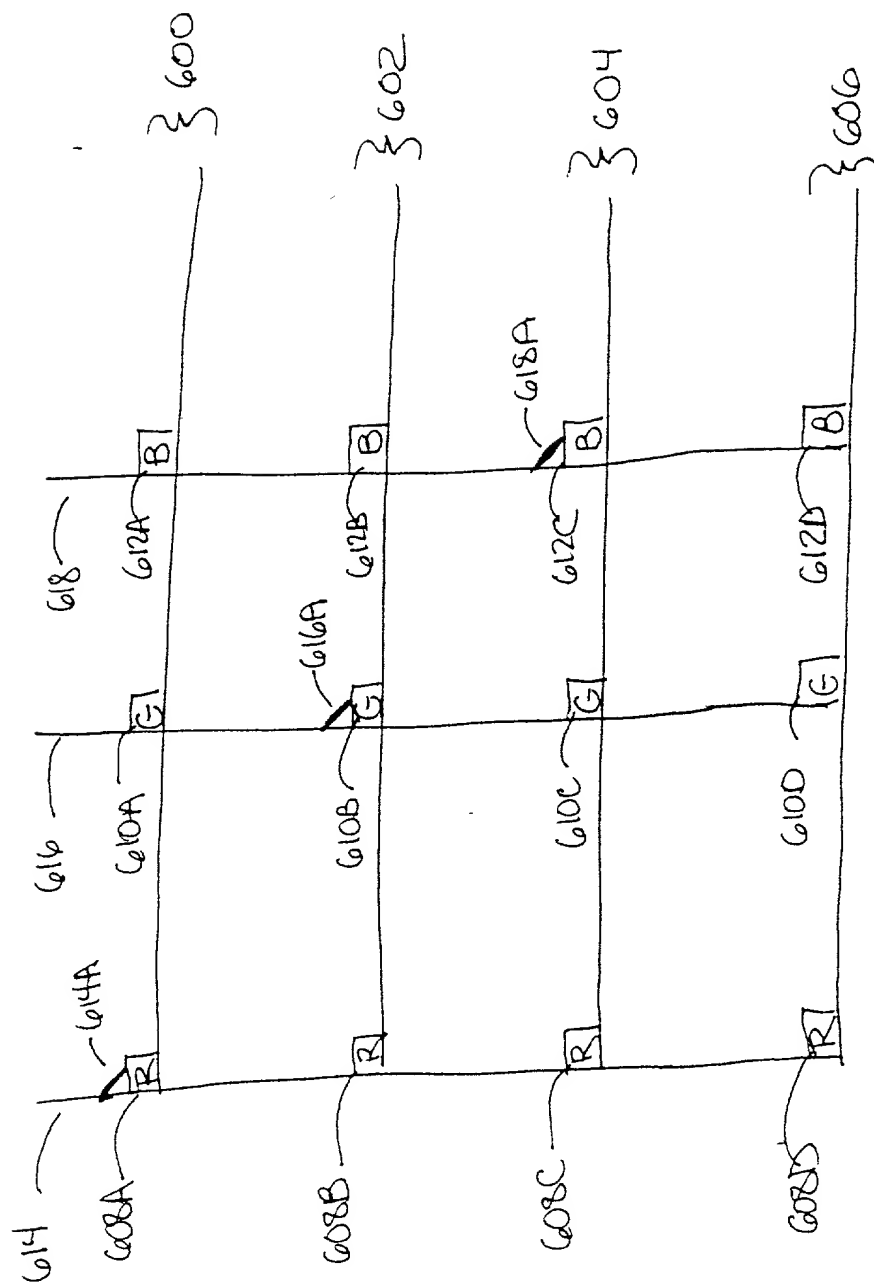

FIG. 7A is a schematic diagram of a projection system. A light source 67 emits light through a lens 66, which focuses the light onto a screen 64. The screen 64 is positioned at a distance 63 from the lens 66. A detector 62 is positioned at a distance 69 from the screen 64. The detector 62 is connected to the screen 64 by a cable 62.

FIG. 10 is a schematic diagram of a system 100, including a first device 102 and a second device 104, which are connected to a network 106. The first device 102 includes a processor 108, a memory 110, and a communication interface 112. The second device 104 includes a processor 114, a memory 116, and a communication interface 118. The network 106 is configured to facilitate communication between the first device 102 and the second device 104.
